SUMMARY

Full-Stack Developer and AI Engineer with **4+ years of hands-on experience** building scalable web applications, SaaS platforms, RESTful APIs, and production-ready AI solutions. Strong expertise in **React, Next.js, TypeScript, Node.js, Python, and FastAPI**, combined with experience in **Generative AI, LLMs, RAG, AI Agents, OpenAI-compatible APIs, and Computer Vision**. Delivered **150+ software projects for clients across 40+ countries**, developing secure, multi-tenant systems and intelligent automation workflows from architecture and development through deployment and optimization.

TECHNICAL SKILLS

- **Frontend Development:** React.js, Next.js, TypeScript, JavaScript, HTML5, CSS3, Tailwind CSS, Redux, React Native / Expo, Streamlit
- **Backend & API Architecture:** Node.js, Express.js, FastAPI, Hono, tRPC, REST APIs, GraphQL, PHP, Laravel, Microservices Architecture
- **AI & Machine Learning:** Generative AI, LLMs, AI Agents, Retrieval-Augmented Generation (RAG), Prompt Engineering, Computer Vision (YOLOv8, OpenCV), Explainable AI (SHAP), Predictive Analytics, Machine Learning (XGBoost, CatBoost, Scikit-Learn), Reinforcement Learning (PyTorch)
- **AI Frameworks & APIs:** OpenAI APIs, Google Gemini API, Groq API, Llama 3.3, Speech-to-Text (STT), Text-to-Speech (TTS), n8n Workflow Automation
- **Databases & ORMs:** PostgreSQL, MongoDB, MySQL, SQLite, Supabase, Drizzle ORM, Firebase Realtime Database
- **Infrastructure, Cloud & DevOps:** Docker, Vercel, IONOS, AWS S3, Nginx, Git, Linux, Webhooks (HMAC-SHA256), CI/CD, Postman
- **Third-Party Integrations:** Stripe Payments, Twilio (Voice & SMS), Plaid, Coinbase API, Alpaca API, Resend, SMTP

PROFESSIONAL EXPERIENCE

FULL-STACK DEVELOPER & AI ENGINEER

Fiverr (Independent Technical Consultant / Freelancer) | Apr 2023 – Present

- Delivered **150+ end-to-end software projects for clients across 40+ countries**, building scalable web applications, SaaS platforms, business systems, and AI-powered products.
- Architected and developed **full-stack applications** using React, Next.js, TypeScript, JavaScript, Node.js, Python, FastAPI, PHP/Laravel, PostgreSQL, MySQL, and Supabase, including secure authentication, RBAC, multi-tenancy, REST APIs, dashboards, and database systems.
- Built and integrated **AI/ML solutions** including LLM applications, AI agents, RAG pipelines, chatbots, AI voice systems, automation workflows, predictive models, Computer Vision, Deep Learning, and Explainable AI using OpenAI APIs, Gemini, Groq, and modern ML frameworks.
- Integrated and deployed production systems with **Stripe, Twilio, Plaid, Resend, brokerage APIs, webhooks, cloud infrastructure, Docker, and Nginx**, managing the complete SDLC from

requirements and architecture through development, testing, deployment, and optimization.

SOFTWARE ENGINEER *Xpert Prime* | Jul 2025 – Jun 2026

- Engineered scalable full-stack web modules and enterprise applications using the MERN stack (MongoDB, Express, React, Node.js), PHP, and Laravel within an Agile development environment.
- Developed and optimized backend RESTful APIs, database schemas, and queries, improving application performance and client-side data rendering.
- Collaborated with cross-functional teams to translate complex business specifications into intuitive UI/UX components using React.js and TypeScript.
- Integrated external microservices, payment gateways, and third-party APIs while maintaining code quality through testing and code reviews.

SUMMER INTERN *Ustadam* | Jun 2024 – Aug 2024

- Assisted in customizing and deploying enterprise software modules utilizing the Odoo platform.
- Gained practical experience in business workflow analysis, relational database design, and ERP.

PROJECTS

LeadFlow AI — AI Receptionist & CRM SaaS Platform

Architected a multi-tenant AI receptionist and CRM platform automating lead qualification, Twilio Voice inbound/outbound call workflows, and live AI-to-agent handoffs. Integrated Stripe subscription management, automated SMS/email alerts, and role-based access control (RBAC).

Technologies: React.js, Next.js, TypeScript, Hono, tRPC, MySQL, Drizzle ORM, Twilio Voice/SMS, Stripe API, OpenAI API, REST APIs.

IO SKY — Enterprise SaaS & AI Workflow Platform

Developed an enterprise management platform supporting multi-tenant isolation, automated document analysis, and client report generation via provider-neutral OpenAI-compatible APIs. Built secure Supabase file storage and outbound webhooks signed with HMAC-SHA256.

Technologies: Next.js, TypeScript, React, Supabase, PostgreSQL, Drizzle ORM, OpenAI-Compatible APIs, Resend, Webhooks.

ShopBot Pro — RAG-Based AI Customer Support Engine

Built an intelligent customer support chatbot using Retrieval-Augmented Generation (RAG) with TF-IDF cosine similarity to query custom document stores. Integrated Llama 3.3 via Groq API with strict confidence thresholding to prevent hallucinations.

Technologies: Python, LLMs, RAG, TF-IDF, Cosine Similarity, Llama 3.3, Groq API, Pandas, REST APIs.

ProfitBot AI — Automated FinTech & Trading Platform

Engineered a real-time market scanner detecting technical cryptocurrency setups (VWAP Reclaims,

Order Blocks) with Human-in-the-Loop execution. Integrated Alpaca brokerage APIs, Plaid account linking, and Stripe PaymentIntents for profit sweeps.

Technologies: JavaScript, Node.js, Express, Coinbase API, Alpaca API, Stripe, Plaid, REST APIs.

AI-Powered PPE Detection & Safety Compliance System

Built a computer vision application detecting workplace safety violations (missing helmets/vests) in real-time video streams using YOLOv8 and OpenCV. Implemented spatial association algorithms to map PPE items to personnel bounding boxes.

Technologies: Python, YOLOv8, OpenCV, Streamlit, Computer Vision, Deep Learning.

CarHub — SaaS Booking & Garage Management Platform

Architected a cross-platform SaaS booking and garage management platform featuring multi-tenant isolation via Supabase Row Level Security (RLS), provider availability scheduling, and vehicle documentation workflows.

Technologies: React Native, Expo, TypeScript, Supabase, PostgreSQL, SaaS Architecture, RLS.

Legend — AI Football Video Analysis Platform

Built an AI-driven video analysis engine supporting local video processing, automated temporary cloud storage lifecycle management in Supabase, and LLM-assisted athletic performance feedback.

Technologies: React, JavaScript, TypeScript, LLMs, Supabase Storage, Video Processing, REST APIs.

Chindela — AI Learning & Education Platform

Developed an AI-powered educational platform featuring dual parent-child authentication, interactive digital storybooks, automated AI tutor feedback workflows, and Stripe billing integration.

Technologies: React, Node.js, TypeScript, OpenAI API, AWS S3, Stripe API, PostgreSQL, Express.js.

EDUCATION

BACHELOR OF SCIENCE IN COMPUTER SCIENCE

University of Engineering and Technology (UET), Lahore

- **Core Coursework:** Data Structures & Algorithms, Object-Oriented Programming, Database Systems, Software Engineering, Operating Systems, Computer Networks, Software Project Management (Grade A).

CERTIFICATIONS & TRAINING

- **Generative AI Application Developer (Top Performer)** — Pak Angels / ASPIRE Pakistan (2025)
- **PMI Kickoff Agile & Predictive Badges** — Project Management Institute (2025)
- **Python & Machine Learning Advanced** — Kics, UET Lahore (2023).
